Subject: Sequence search request 10/586191

3/1/08

Re: 10/586191

Please carry out the following searches:

1. A score over length search of nucleic acid sequence SEQ ID NO:2, looking for hits of between 10 and 50 nucleotides in length with 100% complementarity to the target.
2. A standard search of amino acid sequence SEQ ID NO:1 against the protein databases.
3. A standard search of amino acid sequence SEQ ID NO:1 against the nucleic acid databases.

In all three searches please provide alignments for all 100% hits.

Thanks,

Louis Wollenberger
